### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Payal Patel on 11/19/09.

The application has been amended as follows:

#### **In the claims:**

Claims 2, 4, 6-16 have been canceled.

In claim 1, line 10, after "polymer coating" the phrase - - wherein said article is a glove - -

In claim 3, line 1, after "claims" and before "wherein" the number "2" has been changed to - - 1 - -.

In claim 5, line 1 after "claim" and before "wherein" the number "4" has been changed to - - 3 - -.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance:

With regard to claims 1 and 31 the prior art fails to teach or suggest applicant's recited powder-free elastomeric glove comprising an elastomeric material with a first and a second surface the first surface being coated with a powder free coagulant

Art Unit: 1794

coating which comprises micronized high-density polyethylene, a micro emulsion of amino silicone, a dimethicone emulsion, an ethoxylated acetylenic diol surfactant and a cellulose thickener.

The two closest references are Hassan et al. (US 6019922) and Chen (US 5742943). Hassan discloses a powder free elastomeric glove with a coating that comprises micronized high density polyethylene. Chen discloses a powder free elastomeric glove with a coating that comprises an amino silicone and an ethoxylated acetylenic diol surfactant. Neither reference disclose a powder free elastomeric glove with a coating that comprises a micro emulsion of amino silicone, a dimethicone emulsion and a cellulose thickener. Furthermore, there is insufficient motivation to combine the micronized high-density polyethylene with the amino silicone and an ethoxylated acetylenic diol surfactant in the same coating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
